**SUBJECT : NAME CHANGE ANNOUNCEMENT**

Dear Customer and business partner,

We are proud to announce that Eagle Hydraulic Components Inc, leader in manufacturing of hydraulic cylinders and power units as well as distribution of various hydraulic components has changed name to EAGLE HYDRAULIC INC.

This change is driven by our efforts to develop integrated solutions that are innovative and adapted to our customer needs.

To accomplish this ambitious objective, we made important investments in our new corporate headquarter, our new Yixing factory and also in our new image.

- Optimised assembly lines
- Implemented product data management (PDM) software Teamcenter and computer aided design (CAD) software NX from Siemens PLM Software
- In process of implementing LMS Imagine.Lab AMESim modeling software
- New production cylinder test bench at our Yixing factory and an R&D test bench for pumps, motors, valves and cylinders at our Mirabel headquarters
- Improved quality system
- Doubled manufacturing and warehousing area
- Qualified and passionate group of technicians and engineers

We are of course doing all of this while not loosing sight of what created Eagle Hydraulic's reputation:

- High quality products
- Very competitive price

Please advise your various departments of our new name, EAGLE HYDRAULIC INC. and modify our name in your computer systems.

Eagle Hydraulic is now ready to build an innovative, performing and competitive future with you!

Truly yours,

Pierre Létourneau  
Sales and marketing Director
